THE SUREFIRE NO-HASSLE WARRANTY

SureFire warrants our illumination tools, edged weapons, and pen products to be free from defects in workmanship and materials, including any LEDs housed within, for the lifetime of the original owner. We will repair, replace, or refund your original purchase price of these products, at our discretion, if it is determined by us to be defective. Electronics, chargers, and rechargeable batteries are covered for a period of two years with proof of purchase. Normal wear and tear—including lamps burning out, headbands and headpads wearing out, batteries draining, ink cartridges running out, and switches wearing out—is not covered, nor is damage resulting from misuse, abuse, neglect, battery damage, use of other than SureFire-brand batteries or accessories, or altering these products from their original state. Parts and accessories for illumination tools are not covered by this warranty.

WARRANTY DISCLAIMER

The above warranty is exclusive, and to the extent permitted by applicable laws, shall be in lieu of all other warranties, express or implied, including, without limitation, any warranty of merchantability or fitness for a particular use or purpose. SureFire disclaims any and all liability for product malfunctions, physical injuries, or property damages that result in whole, or in part, from the criminal, negligent, or improper use of the product, or from modifications or alterations thereto. In no event shall SureFire be liable for any incidental, special, or consequential damages relating to the purchase, use, or performance of any SureFire product.

WARRANTY CLAIMS

For claims, contact Customer Service at 800-828-8809 or 714-545-9444 to obtain a Return Merchandise Authorization number (RMA#). Then package the unit carefully and send to (no CODs):

SureFire, LLC.
Repairs Department, RMA#___
17680 Newhope, Suite B
Fountain Valley, CA 92708

SureFire will pay reasonable shipping costs to return the unit to you.

USER MANUAL

GET THE BEST FROM THE BEST

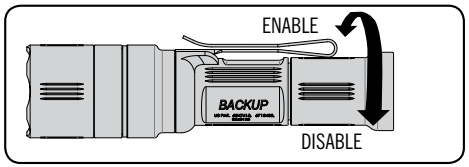
Your SureFire illumination tool has been designed and manufactured to provide years of reliable service. Please review this manual to ensure optimal performance.

LOCKOUT TAILCAP (US PAT. RE40125)

Most SureFire illumination tools feature a lockout tailcap, which prevents accidental activation during storage or transport. The tailcap may need to be enabled prior to light operation.

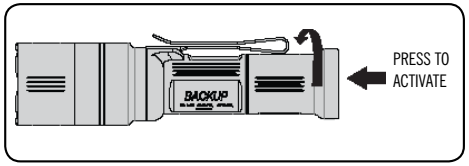
To enable, rotate tailcap clockwise until light activates when tailcap pushbutton is pressed, providing momentary-on light output.

To lock out tailcap, rotate counterclockwise until light will not activate when pressed.



LIGHT OPERATION

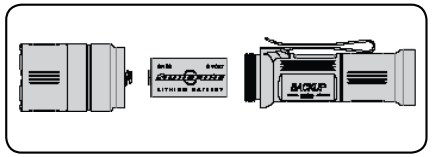
Press or click pushbutton tailcap switch once for high output. Return to off and press or click on again, within two seconds, for low output.



BATTERY REPLACEMENT

Most SureFire illumination tools ship preloaded with batteries. To load or replace battery:

1. Unscrew head counterclockwise and remove.
2. Remove old battery and dispose of properly.



3. Insert new 123A lithium battery with positive (+) terminal oriented forward.
4. Replace head by screwing on clockwise. Press pushbutton (with tailcap enabled) to test.

BATTERY INFORMATION & WARNINGS

For complete battery information and warnings, reference the enclosed BATTERY INFORMATION / WARNING insert in your illumination tool's original packaging or visit **www.surefire.com/batteries.**

MAINTENANCE

Wipe with a clean, dry cloth. For tips on maintaining your SureFire illumination tool, visit **www.surefire.com/faqs-maintenance.**

ACCESSORIES

SureFire makes a full line of accessories for most of its illumination tools. For a complete listing, visit **www.surefire.com/partsaccessories.**
